INDEX TO VOLUME 25

The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and articles in society transactions. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O, and S respectively.

PAGE

Abdomen, topographic relationship between nerve plexuses and lymph nodes of....1362

Abscess, headache in cerebral and cerebellar abscess of otitic origin..... 414

metastatic, of brain; clinical study.....1155

metastatic, of brain; operation; recovery 910

Absinth, combined action of some convulsant agents in small doses and action of bromides in experimentally induced convulsions *1306

Accommodation: See under Eye

Achylia gastrica, observations on etiologic relationship of achylia gastrica to pernicious anemia; nature of reaction between normal human gastric juice and beef muscle leading to clinical improvement and increased blood formation similar to effect of liver feeding..... 865

Acid, lactic; combined action of some convulsant agents in small doses and action of bromides in experimentally induced convulsions *1306

Acro-asphyxia, pathologic significance..... 192

Addison's disease.....1340

Adenoids, disturbances of handwriting in subjects with adenoid vegetations..... 876

Adrenaline: See Suprarenal preparations

Adson, A. W.: Intramedullary tumors of spinal cord; review of 51 cases, with attempt at histologic classification....*679

Affectivity, two aspects of.....1163

Agrammatism in English language, case of; clinical study in categorial thought...*556

Alcoholism, effects of ten generations of alcoholic ancestry upon learning ability in albino rat.....1158

post prohibition alcoholic psychoses in New York State.....1159

psychopathology of..... 644

Allen, S. C.: Dystonia musculorum deformans in siblings.....1166

Allergy: See Anaphylaxis and Allergy

Alpers, B. J.: Clinical syndrome of corpus callosum *67

Diffuse progressive degeneration of gray matter of cerebrum.....*469

Origin and development of giant cells in gliomas *281

Ametropia: See under Eye

Ammon's Horn: See under Brain

Amyloid bodies, histogenesis of amyloid bodies in central nervous system (contribution to pathology of oligodendroglia) 912

PAGE

Anaphylaxis and allergy; allergic migraine; based on study of 55 cases..... 642

Anemia, changes in spinal cord in subacute combined degeneration following liver therapy 1394

effect of single massive doses of liver extract in pernicious anemia.....1160

etiologic relationship of achylia gastrica to pernicious anemia; nature of reaction between normal human gastric juice and beef muscle leading to clinical improvement and increased blood formation similar to effect of liver feeding 865

nervous disturbances in pernicious anemia and liver therapy..... 438

neural symptoms and signs in pernicious anemia; effects of liver extract.....*1100

thrombocytes in pernicious anemia..... 642

treatment of pernicious anemia with desiccated, defatted stomach..... 883

treatment of pernicious anemia with extract of fish liver.....1164

Anesthesia, case presenting unilateral vestibular syndrome with a contralateral dissociated hemianesthesia.....1379

effect of spinal anesthesia on cardiac output 882

paralysis of an extra-ocular muscle after spinal anesthesia 875

Angiospasm, transient hemianopias in..... 411

Antimeningococcus Serum: See under Meningococcus

Aphasia, crossed.....1351

from lesions of insular-lenticular nucleus 402

history of theories of language in normal and pathologic states..... 183

Aphonogelia: See under Laugh

Arachnoid, clinicopathologic study of intracranial arachnoid membrane..... 645

spinal; a note on cells in pathologic conditions *373

Argyll Robertson Pupils: See under Pupil

Arsenic in spinal fluid following intravenous administration of tryparsamide and silver arsphenamine.....*137

Arsphenamine, arsenic in spinal fluid following intravenous administration of silver arsphenamine.....*137

pathology of arsphenamine intoxication of nervous system..... 176

pericapillary encephalorrhagia following use of..... 208

Artery, anemic foci of softening from infectious thrombo-arteritis of large basilar vessels..... 189

superior cerebellar, thrombosis of.....*1003

Asymbolia for pain.....*598

Atlas, treatment of spondylitis of atlas and epistropheus 1159

Attention, physiologic sketch of attention..1354

Automobile drivers, handedness and eyedness of speeders and of reckless drivers *829

PAGE

Bailey, W.: Involvement of nervous system following extraction of teeth..... 198

Baker, R. C.: Cerebellar agenesis.....*548

Ballance, C.: Anastomosis of nerves; experiments in which central end of divided cervical sympathetic nerve was anastomosed to peripheral end of divided facial nerve and to peripheral end of divided hypoglossal nerve..... *1

Barrera, S. E.: Brain and cerebrospinal fluid in acute aseptic cerebral embolism *523

Bassoe, P.: Disseminated encephalomyelitis; its relation to other infections of nervous system.....*723

Behavior disorders in chronic epidemic encephalitis 643

does extroversion-introversion offer a clue for prognosis and treatment of problem boys 1355

relation of endocrinopathic states to conduct disorders of children..... 420

some principles in treatment of behavior problems in children..... 884

Bilirubin, value of blood bilirubin estimation in differential diagnosis of cerebrovascular accidents..... 195

Bismuth in syphilis..... 881

Bladder tumors, pathology of malignant bladder neoplasms..... 881

Blindness, cortical visual and color dissociation following gas (carbon monoxide) poisoning.....1391

Blood circulation; acute diseases of brain due to functional disturbance of circulation; laminated cortical disease...*227

circulation; question of "end-arteries" of brain and mechanism of infarction...*273

circulatory disturbances and psychoses.. 412

equilibrium between spinal fluid and blood plasma; composition of human cerebrospinal fluid and blood plasma in meningitis *1290

equilibrium between spinal fluid and blood plasma; composition of human spinal fluid and blood plasma.....*1271

lactic acid in blood; combined action of some convulsant agents in small doses and action of bromides in experimentally induced convulsions.....*1306

nonelectrolytes, their distribution between blood and spinal fluid.....*1297

pressure, emotional hypertension.....1366

pressure, ocular manifestations of sympathetic nervous system hyperactivity in conditions other than exophthalmic goiter and especially in essential hypertension; "lidspasm," a new eye sign 1359

pressure, static hypotonia; a clinical and graphic study of muscular synergy and statics in hypotonia..... 415

sugar; neurology and psychiatry in hypoglycemic states 629

value of blood bilirubin estimation in differential diagnosis of cerebrovascular accidents 195

Bolsi, D.: Microglia and oligodendroglia studied by silver methods and vital staining 664

Boltz (A. A. S.) test in cerebrospinal fluid..1363

Bones, neuropathies of.....1152

cysts and their demonstration by means of encephalography 874

cysts, congenital, of cavum septi pellucidi (fifth ventricle) and cavum vergae (sixth ventricle); diagnosis and treatment *44

cysts, sudden death associated with.....1163

degeneration, diffuse progressive, of gray matter of cerebrum *469

distribution of injury in Ammon's horn. 882

effect of fixation on cellular picture of cerebral cortex 1164

emulsion, results of treatment for epilepsy with 641

encephalography; brain cysts and their demonstration by encephalography.... 874

encephalography, technic of encephalography with description of chair.....*128

experimental lesions of brain from carbon monoxide 1361

functions 642

gangliogliomas; further report with special reference to those occurring in temporal lobe *309

gross and histological anatomy of brain of cyclops 878

hemorrhage *255

hemorrhage; pericapillary encephalorrhagia following use of arsphenamine. 208

hemorrhage, value of blood-bilirubin estimation in differential diagnosis of cerebrovascular accidents 195

lipoids, quantitative determination of... 858

methods for studying brains of exceptional people 1156

midbrain; discovery of 2 nuclei of human midbrain with ulterior studies on oculomotor nuclei of mammalians.....1345

midbrain pituitary problem..... 189

melanoblastosis, primary, of leptomeninges and brain.....*803

myelo-architectonic structure of cortex of dorsal temporal lobe in man.....1136

parasitic cysticercus invasion of..... 210

reaction of brain tissue to intravenous injection of hypotonic solutions..... 635

relation of visual area and vestibular apparatus 406

senile plaques, origin and formation of..*1042

shrinkage of brain embedded in paraffin..1142

softening of both cerebral hemispheres in infant aged 2 months..... 624

syndrome of brachium conjunctivum and tractus spinothalamicus.....*1003

correction to above article.....1305

tissue, new staining method for..... 197

traction of cicatrix on and in brain in traumatic epilepsy in its significance for occurrence of attacks and for therapy.. 396

tuberculosis, intracranial hypertension and papillary stasis..... 635

tumor of fourth ventricle showing deviation of head as only sign..... 644

tumor; suprasellar neoplasm; deep roentgen therapy with improvement..... 908

tumor with disturbance in temperature regulation; hypothalamus and area about third ventricle as possible site for heat-regulating center; report of 3 cases *506

tumors; headaches from cerebral tumors; treatment by different forms of decompressive craniectomies..... 418

Brain—Continued PAGE
tumors, homografts of....1355
tumors of pineal, corpora quadrigemina and third ventricle; inter-relationship of their syndromes and their surgical treatment 410
vascularity of cerebral cortex in a specimen of Apteryx....1162
